

Analysis of the Labor Spirit in Ideological and Political Education of College Students and Its Value Paths

Yaqi Zhang

School of of Life Science and Technology, Mudanjiang Normal University, Mudanjiang, China

Abstract

In the new era, we should grasp the important connotation and value path of labor spirit. It is necessary to promote the integration and development of labor spirit and ideological and political education of college students through the continuous cultivation process of ' drawing, quenching, building foundation and casting soul '.Empower college students in the new era to enhance their hard work and let the spirit of labor radiate new opportunities of the times.

Keywords

Labor Spirit, college student, drawing, quenching, building foundation, casting soul.

1. The Important Connotation of Labor Spirit

Labor is a purposeful activity and an important element to clarify the dialectical relationship between productivity and production relations. Nowadays, many labor hot words have emerged, from the broad masses of working people who work hard in all walks of life to achieve ' two-way running ', to the ' new quality productivity ' that brings freedom and convenience to people, from the popular ' Kong Yiji literature ' to the struggling people who share the same interests, and 'get along'with everything.

All along, the majority of working people have been working diligently on all fronts, creating diligently, struggling courageously, and lifting up the Chinese dream of labor and beauty of labor with the energy of struggle and down-to-earth labor. It is because of the workers in all walks of life, long-term perseverance, hard work and dedication, and overcome the difficulties together, to continue to create good results, the workers in the heart of the interpretation of the great spirit of labor with love and strength.

1.1. Strive hard and create the future in reverence for labor.

"The Chinese nation is a people who respect labor and have the courage to struggle. For thousands of years, the working people have drawn grand blueprints with their own sweat and hands, advocated a culture of reverence for labor, and created a magnificent Chinese civilization through hard work. From respecting the laws of nature, working at sunrise and resting at sunset, to self-sufficiency and food and clothing, to the new era of comprehensive well-being, winning the battle against poverty, and ushering in the great journey of the new era. It is the spirit of labor that unites the Chinese nation and the reverence and respect of the working people for labor that has created the treasure trove of Chinese civilization and led to today's world-renowned achievements.

No matter when we are, we should always play the role of the working class and laborers as the main force of self-reliance and self-sufficiency. Respect for labor is to want to "do" things, in this call for labor to create, encourage hard work in this era, and constantly renew the style of workers, the courage to bear the new mission, the only way to hard work, perseverance, respect for labor, do not forget the "road from time to time", walk the "road to catch up with the exams", and always keep the exams of the sobriety and struggle, to excel, in order to draw a new era of

new journey magnificent chapter. The new journey of the times is a magnificent volume of chapters.

1.2. Stick to the faith in the love of labor and hold fast to their beliefs.

Ordinary makes great, great from ordinary. Cultivation in the vast land, in the reinforced concrete between the fight, in the streets and alleys in the busy an ordinary figure because of the labor and flash, because of the struggle and greatness. Love of labor, that is, there is a sincere enthusiasm, want to use love and diligence to make themselves a higher quality of workers, the love of work cohesion in each of the work of the struggle, the heart of the people's livelihood. From the retired but not retired, stick to the countryside, guarding the souls of the martyrs, tell the red story of the 77-year-old volunteer lecturer, the mausoleum protector Cheng Xingguo, in order to retain the culture and nostalgia in the revitalization of the countryside, through the way of oral transcripts, to maximize the record of the history of the "people's words" say "people's affairs" of the civilian historians Jiang Yunlu, and then adhere to the list of the problems of the masses as a list of tasks, the counting of the people's control and solve the people's problems, Benefit people's lives, warm people's hearts, with "hard index" for the masses "happiness index" of the community cadres Li Fei.

Because of love, so adhere to, from the encounter with love and persistence, will be devoted to pay. Different labor scenes, shaping the image of labor in ordinary positions, carrying forward the spirit of labor, and showing the beauty of labor. Love labor, need to firm belief, anchor the goal of struggle, we want to praise the extraordinary creation of ordinary jobs, to pay tribute to every hard work, meritorious pursuit of dreamers.

1.3. In the hard work willing to sacrifice, hard work.

"People's livelihood is based on hard work, and hard work means no scarcity." Hard work is the basic requirement. People's happiness lies in hard work, as long as hard work will not be hungry and cold, lack of food and clothing. Happiness will not fall from the sky, relying on hard work, struggle is unending, innovation to overcome the difficulties, is the AVIC chief senior technician Hong Jianguang, stick to the production line to overcome the difficulties, technical innovation, to solve technical problems, it is such a perpetual struggle to keep the nature of the vitality of the spirit of the courage to forge ahead to build up the creation of a vibrant society and a better, more affluent life.

Socialism is the result of work, and the new era is the result of struggle. The happiness and well-being of the people can not be separated from the public security police to stick to their responsibilities and watch for the safety of the people. Medical workers shoulder their responsibilities and missions to ensure people's health and reunion. The crew members stick to the first-line positions, and stand up the passengers' hearts like the last shift of sanitation workers, takeaway brothers, and service personnel. These busy figures have become a beautiful landscape, playing a strong voice with labor, promoting development, and winning glory. In the new era, the majority of workers should base themselves on their positions, stick to their positions, and give full play to the labor spirit of hard work, hard work and dedication, so as to create a better and happy life.

1.4. Pursue excellence in honest labor and forge brilliance.

People do not stand without faith. Honesty and trustworthiness is a fine tradition of the Chinese nation. In ancient times, there was a gentleman's promise to keep his promise. In the new era, honest labor is the basic foundation of success. Only by being honest and trustworthy, honest labor, can we break the difficulties encountered in labor. For example, in the current cyberspace, false transactions are frequently used to arbitrage network platform preferential subsidies. Make traps on some platforms to attract consumers to register new users, use some benefits such as subsidized gold coins, and use the preferential subsidies of the platform to increase

registration and clicks by sharing links, grabbing red envelopes and other 'weeding' ways. This kind of 'Wool-raising' fraud is a dishonest act that lacks integrity, ignores the law, evades reality, and shirks social responsibility.

And won the Jiangsu 's' most beautiful integrity star ' title of labor insurance supplies store owner Jin Feng. Treat people with sincerity, keep them with faith, take righteousness as the first, overcome difficulties together, and polish the ' gold signboard '.In the operation and management of the store, Wang Jinfeng does not make unscrupulous money ' and ' does not pick up wool from customers '.Wang Jinfeng fulfills his commitment with one word and one line. Adhere to the customer first, with promises, keep promises, practice promises of practical action, establish a brand of integrity story.The adherence to commitment, kindness to guests and fulfillment of social responsibility embodied in the golden phoenix is a vivid display of honest management and honest labor.Only by honest labor and diligent work can we take the creation of the ' Chinese miracle ' and the symphony of the ' Chinese shock ' as a line of work, a line of love, and a line of drilling. We must draw infinite charm, perseverance, and majestic strength from the great working people to complete the mission entrusted to us by the new era.

2. Generative Logic of Labor Spirit

The spirit labor is far-reaching, and it is the state of mind, spirit and quality of spirit that transcends time and space and lasts for a long time, which is condensed by the majority of working people's incessant and long-lasting efforts, and by their diligent efforts, and by the creation of their hands and feet on the front line of the struggle. Admittedly, a strong spiritual power is formed in time and space as well as under specific conditions, so in the long-term practice and development and under a specific logic to generate a concentrated display of labor consciousness, labor concepts, labor attitudes, labor habits.

3. The Value Implication of Integrating Labor Spirit Into College Students' Ideological and Political Education

We must do a good job in the education of the people 's satisfaction, fully implement the party 's education policy, implement the fundamental task of moral education, and point out the way forward for the development of our higher education. Integrating the labor spirit into the ideological and political education of college students in an all-round and multi-level way can better promote the development of ideological and political education and the improvement of students ' comprehensive quality. Similarly, the ideological and political education of college students is also an effective way to carry forward the spirit of labor, which can promote the spirit of labor to go deep into the hearts of college students and take root, and has rich value implications.

3.1. Cultural heritage: rooted in the inheritance of Chinese excellent traditional culture.

Culture is the spiritual impetus for the new era of vigor and the creation of a better life. The romance of the Chinese nation is unwavering. Chinese civilization originated from the farming civilization, and the Chinese people are good at creation and hard work, and the spirit of labor has been blended into the bloodline of the Chinese nation from ancient times to the present.

3.2. Practical foundation : based on the practical process of the construction of the majority of workers

Great practice creates great spirit, and great spirit accomplishes great practice. The spirit of labor originates from the spiritual genealogy of the Communist Party of China, and the majority of laborers have thrown themselves into the era of revolution, construction, and reform. The

working people, full of dreams in their hearts, with practical work and responsibility on their shoulders, and with energy in their hands, have a direction on the ground, and are invulnerable and invincible in the fields of social production, volunteerism, and scientific and technological innovation, and they have poured their sweat to produce a thriving China, where the dawn of the world shines brightly.

3.3. Theoretical guidance : based on the ideological essence of Marxist thought

The labor doctrine of the classic Marxist writers is their theoretical guide. Marx and Engels, the founders of Marxism, fought for the proletariat and the toiling masses throughout their lives, revealed the secrets of the exploitation of laborers by capitalists, and explained the decisive significance of labor for human beings and their social development.

Laborers create spiritual wealth and material basis in the continuous social practice, and only then the society develops and progresses. The value of labor and the guiding role of the spirit of labor are highlighted in everything from the long history of farming culture in "the most beautiful harvest in autumn, and a good year in the fragrance of rice blossoms", to the spirit of poverty alleviation through hard work and courage, and the romantic spirit of spaceflight through the spirit of courageous climbing and pioneering and innovation.

3.4. Time recognition : Answer the important era proposition of the reality of the new era

The labor spirit of the new era is the inheritance and development of the Chinese nation 's fighting and hardworking virtues. We should guide students to fasten the first button of life. The general ideological attitude of college students in the new era is positive and correct, but they are vulnerable to the impact and influence of some bad atmosphere. Therefore, college students in the new era should cultivate the spirit of pragmatic labor, carry forward the diligent work of breaking new ground in the post and doing new achievements.

4. Realization Path of Cultivating Labor Spirit in College Students.

"The soul of a nation is formed by culture, and the soul is forged by culture." By relying on the power of culture, we can improve people's ideology, moral character and overall quality, thereby promoting the civilized development and progress of society. In other words, in order to realize the wealth and strength of the country, the happiness of the people, the great rejuvenation of the Chinese nation, it is necessary to play the role of the mainstay of the young generation, to promote the spirit of labor into the ideological and political education of college students, and further to draw sustenance, search for the roots of the foundation, to strengthen the skills, casting the soul of the cultivation of the soul of the spirit of labor, casting the spirit of the soul of the "with which the college students will have a spirit of guidance for the direction of the struggle.

4.1. Drawing: Continuing, advance with the times.

College students are dream-chasing people full of the heart of the son. They are promising young people with great ambitions and struggles, and bear the heavy responsibility of building the future of the country. College students are born in the great era and the great prosperity. They are in the stage of strong acceptance and adaptability, and are in the great years of inspiration, patriotism and truth-seeking. It is necessary to deeply understand what young people think and what they need to be trapped. On the basis of inheriting the excellent traditional Chinese culture, we should explore new paths, constantly absorb excellent culture, and keep pace with the times.

First, in the inheritance of the fine traditions of the Chinese nation. Drawing on the fine heritage of the Chinese nation, such as diligence, thrift, hard-working and so on, we continue to continue

the essence of the spirit of labor contained in the world-famous excellent traditional culture. We recommend college students to carry out reading and book recommendation activities, such as reading "China Beidou", "Labor Weekly" and "The Revolutionary", to feel the spiritual power and great achievements of the working people.

The second is to infiltrate the spirit of labor in the discipline. The course content is carefully designed in academic disciplines. In the process of teaching professional knowledge, it is the wisdom and strength of the Chinese nation's workers to let students realize that behind the theoretical and practical knowledge of the subject. Inheriting and continuing the spiritual power of hard study and innovation formed by the Chinese nation, we educate and guide college students to understand the connotation and significance of 'labor creates happiness and hard work achieves great achievements'. Pay attention to the cultivation of college students' scientific attitude, normative consciousness, efficiency concept and carry forward the pioneering and innovative spirit of the times.

The third is to innovate the working methods of education. We will promote the deep integration of theoretical knowledge and network technology in the ideological and political education of college students, strengthen the guidance of network ideology, strengthen the attention and education of college students, and educate and guide students to love labor and hard work. By constructing a new carrier of labor education, it shows the influence of labor spiritual culture. For example, taking pictures of campus life and learning work in the form of video, entering students' dorms, classrooms, self-study rooms, canteens and other places, showing the actual labor deeds of campus teachers and students, logistics support staff, volunteer service, campus construction struggle stories and other scenes, broadcasting on platforms such as public accounts and campus websites, and building a healthy, civilized, high-spirited and full-participation labor spiritual atmosphere.

4.2. Building foundation : upholding the spirit and cultivating the sentiment

The spirit of labor embodies the spirit of reform and innovation and the spirit of the times, and is also an inexhaustible driving force for social progress. In order to strengthen college students' profound understanding of the spirit of labor, adhere to the spiritual home, enhance the well-being of the working people, pursue a happy life and realize their dreams to go to the daily life of fireworks and poetry and far away.

First, to promote the leadership of the spirit of labor, consolidate the foundation of labor education. Strengthen the cultivation of the spirit of labor, deepen the ideological and political education of college students, carry out thematic counseling on labor education, incorporate into thematic education the spirit of dedication, hard work and endurance, unity and hard work, and a focused and conscientious attitude to work, and deepen the college students' understanding of the spirit of labor by means of case studies, lectures, theoretical lectures and other means.

Second, in the construction of rich connotation of campus culture. It is necessary to integrate the spiritual power of labor into the daily life of college students, through the development of a list of labor tasks, the establishment of campus labor interest groups, associations and other forms. Combined with the Labor Day, volunteer service day major anniversary, festivals, etc., to carry out a series of labor spirit theme education activities, complete the daily labor card, labor results display. At the same time, by cleaning the campus environment, cleaning the teaching buildings, dormitories, laboratories, conference rooms, exhibition halls, etc., students can appreciate the silent efforts of workers, guide them with old age, and highlight the effectiveness of labor education.

Third, the spirit of labor is integrated into the ideological and political theory courses. Teachers of ideology and politics should plant the field of the content of the courses they hold, and influence students through various forms of classroom teaching, online and offline interactive

exchanges, symposiums, scenarios, classroom drama performances, etc. in a silent way, fully apply the important connotation of the spirit of labor and the value of the meaning of the ideological and political theory course to some parts of the course, organically integrating the teaching resources with the education of labor, and allowing college students to participate in the classroom by means of pre-course introduction, demonstration, sharing of classics, reading house experiences, as well as guided reading, recitation, and debate competitions. By way of displaying, sharing classics, reading house experience and reading guide, recitation, debate competition, etc., college students can participate in the classroom, learn the theory of the spirit of labor in the classroom, experience the development of labor technology in practical operation, feel the value of labor creation, and experience the greatness in ordinary labor. Through the ideological and political theory courses to teach the spirit of labor and promote the power of the spirit of labor, to achieve the organic unity of the transmission of knowledge, ability to improve and value leadership.

4.3. Quenching : strive for excellence, navigate the journey.

Create a 'feeling-empowering labor ' propaganda method and cultivate the charm of labor education. With all-round publicity, enhance the sense of intimacy, persuasion and appeal, and refine the new people of the times.

First, learning the spirit of labor. Make full use of the school classroom, carry out "zero distance" "face to face" preaching, carry out teachers and students to participate in the preaching activities, so that the theory of the preaching to listen to understand, have gained. Such as carrying out activities to promote the spirit of labor, through a combination of online and offline, the spirit of labor to speak out, performances to, sing out, through the theme of education, cultural performances, model workers case lectures, themed speeches, labor knowledge contests, etc., into the student dormitories, canteens, libraries, sports fields and other forms of vigorous study and publicity of the spirit of labor, in a short and quick form of publicity of the spirit of labor, courtesy of the role models! Model, through the public number, three micro one end, Vlog, jittering video and other forms, vigorously publicize the labor role models, such as the Qian Navy as the representative of the times, Pei Chunliang as the most beautiful struggler representative characters, the most beautiful railroad representative of the single apricot flower, the most beautiful emergency management workers on behalf of the Cai Rui and so on the power of the role models, through a variety of ways to vigorously publicize the representatives of the spiritual qualities of the students, infected and inspired by the intention of the students Endeavouring to do not slacken, inspire college students to strive for a new journey, build a new era of confidence and unity of power.

The second is to publicize the deeds of labor models. Lead college students to catch up with and catch up with advanced figures, and motivate themselves with the lofty spirit and noble character contained in the advanced deeds of model workers and the most beautiful strugglers. Clear your own goals ahead. It is full of labor enthusiasm and strives to be an advanced labor master, creating a ' Chinese miracle ' and creating a ' Chinese shock '. Behind each of these vivid results are embodied in the broad masses of workers yearning for happiness. The persistent pursuit of social progress comes from the transformation of the ambition of honest labor, hard work and creative labor into practical action and realistic ordinary labor. By watching the model of the times, the seven one medal, the national model workers, the craftsmen of the great powers and other film and television works, the craftsmen of the great powers appeared in the Spring Festival gala this year. 'Major craftsmen and skilled ' craftsmen ' have become the hottest ' stars '. Liu Li : The bright ' oil red ', Ma Hongda : ' Scratch putty ' world champion ' fire ' on the Spring Festival gala. Feel the power of labor in the elegant demeanor and exquisite skills.

Third, broaden the platform for model workers and craftsmen to show their style, and strive to be a labor figure. To fully promote the power of model workers as role models, create a positive

atmosphere in society to learn the spirit of labor, further tell the story of the model workers and the story of the struggle to promote the spirit of the model workers of the new era, grounded, rich storytelling, vivid life, and converge to promote the construction of socialist modernization of a powerful force. Through the website, WeChat public number, newspapers, radio and other channels to display a full range of positions model workers typical dare to take responsibility, active dedication, innovation and vivid deeds, vigorously promote the spirit of the model workers, "around the things" to create "around the people" a wonderful display, so that the spirit of the model workers to internalize the hearts and minds of the people, let the model workers image impressive, brilliant, using reports, storytelling, talks, debates and other colorful forms, to promote the spirit of labor. The form of promoting the spirit of labor into the campus, in-depth classroom, into the dormitory, close to the cafeteria, embedded in the library, through the story of dedication, craftsmanship, and strive to achieve their dreams, so that the spirit of labor to lead the social tide of thought, to create a new social style Maomao new style, to stimulate the enthusiasm of the majority of students to love labor and dare to create the potential.

4.4. Casting the soul : bacon education, collaborative efforts

As a position for training talents, colleges and universities are not limited to the campus, but have been extended to the society. As the builders and successors of the socialist cause. College students need to have a correct attitude towards labor, full enthusiasm for labor and high-end labor ability to become ' high-quality workers '. Therefore, social practice is an important part of forging college students ' practical operation level and realistic and pragmatic ability, so as to promote college students ' ability to cultivate patriotism, enhance hard work, forge personality quality and undertake heavy responsibilities.

Firstly, it is a labor practice that connects books with the reality of daily study and life. To create a labor culture in the campus culture construction, the school organizes and carries out "dormitory labor star", "cafeteria empty plate action little master", "labor gold idea group" and other civilized campus theme activities, through tidying up the housekeeping, cleaning up the campus, water and electricity saving, empty plate action, maintenance of the campus infrastructure, etc., to enhance the students' respect for the fruits of labor, the ideology of respect for the working people. Organize a series of speech contests on the theme of "labor is glorious, great and beautiful", praising the national model workers and advanced strivers, large-scale cultural and artistic activities to promote the main theme of "respect and love, hard and honest labor". A series of college students' innovation and entrepreneurship project plan, labor science and technology level competition, labor skills, to cultivate the love of labor, the initiative of labor, and cultivate students to the Marxist view of labor and good labor quality.

The second is to open the productive labor practice of school and society. The school expands educational resources, organizes students to ' experiential ' and ' immersive ' understanding of enterprises, factory rules and regulations, administrative offices, personnel management, corporate culture, production and marketing indicators, etc., and feels the innovative technological development of enterprises. Comprehend their ' choose a lifetime ' persistent focus. To the factory line, understand the production and processing sales process, production practice, experience the first-line labor workers ' dry line drilling line ' excellence. To the farm immersive play manual labor, and farmers to do together. In the future, we will continue to integrate elements such as scientific and technological innovation and the theme of the new era with the spirit of labor, and create a demonstration atmosphere that loves labor and appreciates labor.

Third, in order to create a "taste of life" and "fireworks" service-oriented labor practice. The university organizes college students to take part in the community service, the volunteer service, the elderly and disabled service, and the cloud teaching service. The "teaching by word

and example" cloud teaching service and other public welfare labor practices, such as going into the community, homes for the elderly, children's homes, and summer social practice activities in the countryside, to cultivate the value of service and dedication to labor, and to develop the good habits of active labor and hard work.

5. Conclusion

Strugglers chase the wind and catch up with the moon, and strivers do not slack, enrich the spirit of labor. To cultivate college students' labor spirit, encourage college students to learn the broad masses of laborers' motivation, drive, and drill, we must have the ambition of taking on great responsibilities, doing great things, becoming great tools, and making great achievements. Contribute to national construction, strive for a better life, and write the track of progress with struggle.
